PROFILE

Second-year Computer Science Engineering student and freelance developer building practical web applications, AI assistants and interactive products. Experienced with React, JavaScript, Firebase, Python, Streamlit and real-world deployment. Currently developing frontend features for a collaborative virtual-office internship project.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript, React, Vite, Canvas | Backend & Cloud: Firebase, Socket.io, Cloudflare Workers

AI & Python: Python, Streamlit, Groq, Gemini APIs | Tools: Git, GitHub, VS Code, Vercel, Netlify, Capacitor

SELECTED PROJECTS

ProxiSpeak — Geospatial Proximity Audio Ecosystem | React, Canvas, Socket.io

- Developing responsive virtual-office frontend, avatar movement, live coordinates, proximity display and remote-player rendering for Infotact internship.

Attendo — Smart Attendance Tracker | JavaScript, Capacitor, Cloudflare Workers

- Built attendance planning, analytics and prediction features; integrated an AI chatbot and photo-based timetable scanning workflow.

CareerSpring — AI Career Platform | Python, Streamlit, Groq

- Built AI-powered career guidance, resume analysis, personalized learning roadmaps and interview support.

Lumière — Restaurant Management Platform | Firebase, Web Development

- Built customer ordering and administration interfaces covering billing, inventory, orders and business tracking.

Medora AI / Lumio AI / LexiSure | Deployed AI Applications

- Developed AI assistants covering health information, learning support and legal-information guidance.

EXPERIENCE

Frontend Developer Intern — Infotact Solutions | October 2026 – Present

- Working on the React frontend of ProxiSpeak, including interactive office UI, avatar presence and Socket.io integration.

Freelance Web Developer | 2026 – Present

- Built and deployed client websites and custom responsive web experiences.

ACHIEVEMENTS & CERTIFICATIONS

- Infotact Web Development Assessment — 57.5/60 (95.8%), rank 279; issued 25 September 2026.
- Build With Bharat 2.0 — national-level hackathon PPT Submission Round participation, Team Yazh, 13–14 September 2026, NIT Delhi.

EDUCATION

Seshadri Rao Gudlavalleru Engineering College — B.Tech CSE, 2nd Year (2025–Present) | CGPA: 8.0/10

Narayana Junior College — MPC: 79.9% | DIHS School — SSC: 80%
